No HARM, No FOUL
Sample Task Scorecard

Nationwide®
is on your side

This sample HARM/FOUL Scorecard offers a way to evaluate the number of HARM and FOUL events associated with a work task. Use a check or tally mark in the corresponding HARM/FOUL box to record each occurrence during the task. For example, a task that involves lifting a 40-pound bag of material overhead while standing on a pallet raised by a forklift to load a feed hopper for a machine could include a mark in all of the H,A,R,M,F,O,U,L boxes. Use the task section to provide a description of the task being evaluated, such as palletizing case goods for shipping. Some jobs may have several task elements. Some may be isolated events. Use the evaluation totals to help prioritize tasks or hazards, and then work with team members to develop and implement corrective solutions that reduce the score and the risk of injury.

Location: _____   Date: _____

No HARM, No FOUL Scorecard

TASK	H	A	R	M	F	O	U	L	TOTAL

High Force Requirements (lifting, pushing, pulling)

Awkward Work Postures (overhead, static positions, excess reaching)

Repetitive Motions (twisting, bending, gripping, squeezing)

Machinery/Materials Exposures (caught in, contact with, LOTO)

Fall Exposures (same level and elevated)

Occupational Disease (noise, fumes, vibration, heat/cold)

Unsafe Driving (operator, site/route, vehicle and load)

Line of Fire (struck by, caught between).
